1. To add items to your folder click on the folder icon to the right of that item.

After selecting articles to add to your folder, go to the **Folder** link at the top of the page or the **Folder View** link down the right-hand side

The screenshot shows the EBSCO search interface. At the top, the 'Folder' link is circled in orange. Below the search results, a large blue 'Folder' button with a folder icon is highlighted. To the right, a 'Folder has items' notification box lists the selected articles. In the 'Folder Contents' view, the 'Export' button in the right-hand sidebar is circled in orange. A list of articles is shown with checkboxes for selection.

2. To view all the items you have selected, click on **Folder** at the top of the page or **Folder View** to the right.

3. You need to select the items that you want to export again from this list (or select ALL).

4. Click on **Export**.

Save citations to a file formatted for:

- Direct Export in RIS Format (e.g. CITAVI, EasyBib, EndNote, ProCite, Reference Manager, Zotero)
- Direct Export to EndNote Web
- Generic bibliographic management software
- Citations in XML format
- Citations in BibTeX format
- Citations in MARC21 format
- Direct Export to RefWorks

5. Make sure that **Direct Export to RefWorks** is selected.

If you do not have RefWorks already open and logged into, RefWorks will now automatically open and you can login.

The References will be automatically imported into RefWorks.

Click on **View Last Imported Folder** to see them.

Words of caution:

1. When you export records, RefWorks will open up in a new window each time. If you already have RefWorks open that will also remain open – i.e. you will have two windows open displaying your RefWorks account. One of these will be the previous version without the items you have just attempted to export. You will need to close this window down to keep track of your references.
2. Conference papers are exported as Journal articles and will need to be amended in your RefWorks account
